International Symposium on Oral Implantology

Bilbao (SPAIN) • Euskalduna Convention Center
october 1st :: 2nd - 2010

*"Prince Felipe Award for
Technological Innovation"*

Welcome to BTI's VIII International Symposium!

Dear Colleagues,

After the great success of the 2008 edition, I am pleased to announce the celebration of the VIII International Symposium organized by Eduardo Anitua Foundation together with BTI. It will take place next October 1st and 2nd at the Euskalduna Convention Centre (Bilbao - Spain).

As every year, we have designed a high level Scientific Program with the aim of finding solutions to complex cases through the latest and most innovative techniques. To that end, we will have the collaboration of a large group of internationally renowned professionals that will lecture about topics of current interest from an innovative point of view. As in previous editions scientific conferences will be complemented by a commercial exhibition, workshops and a poster contest.

After the great success of the " Song & Dance" performance within the Social Program of our last edition, this year we will be delighted to have with us the performance of Inma Shara, one of the brightest representatives of the new generation of Spanish conductors, that with the collaboration of the Filarmónica Orchestra will present "Music & Cinema" for all of you on Friday October 1st .

We are working to make our Symposium a must in your agenda and we expect to count on with your presence.

Reserve the dates - October 1st and 2nd - to spend two incredible days with us in Bilbao, an interesting and charming city that I am sure you will find amazing!

I look forward to seeing you soon,

Eduardo Anitua
